Delivering Better Solutions

STONE WOOL

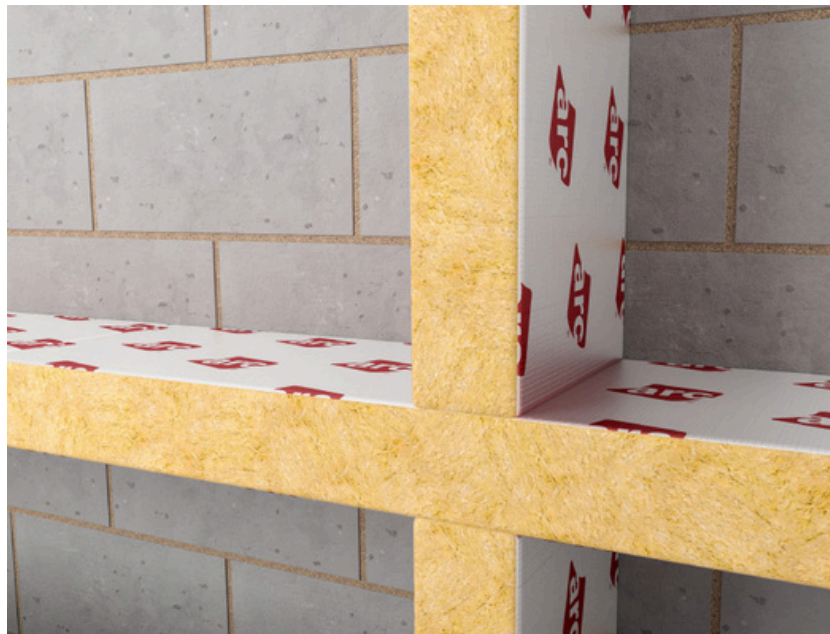

Stone wool insulation offers remarkable features and benefits for both residential and commercial applications. Its unique composition, derived from volcanic rock and slag, provides exceptional thermal performance, effectively reducing heat loss and maintaining indoor temperatures.

KNAUF

FIRE PROTECTION

- Essential features and benefits for safety and compliance
- Prevent spread of smoke and fire
- Minimize property damage
- Meet code requirements and regulatory standards
- Contributes to lower insurance premiums for homeowners

GLASS INSULATION

- Superior thermal and acoustic performance
- Fire-resistance
- Easy installation (combi-cut insulation roll)
- Suitable for partitions, ceilings, wall linings, pitched roofs, metal roofs, metal facades, and ventilated facades

Volcalis

isolamentos minerais

PLASTERBOARD

- Lightweight and easy to install
- Preferred choice for both residential and commercial projects
- Save time and labour costs
- Excellent fire resistance
- Easy finish, providing seamless appearance
- Contributes to sound insulation
- Competitive pricing

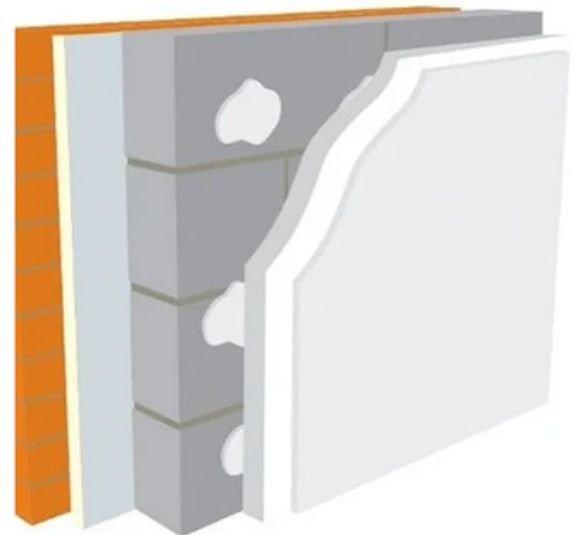

EWI SYSTEM

We're proud stockists of KLEiB External Wall Insulation render systems and accessories, offering everything you need for a high-quality, long-lasting finish. From weatherproof acrylic and silicone renders to essential accessories, we've got you covered for projects of all sizes.

WARMLINE PIR, XPS & EPS

The Warmline insulating laminates are designed as a simple effective way to improve the thermal efficiency in both walls and roof applications. They are fully applicable with Part L of the building regulations.

- All thicknesses readily available
- Simple solution to upgrading walls and roofs
- Quick and easy to install
- Can be used for both new builds and renovations
- Cost effective return
